

E30NC230

Thermal actuator
for underfloor heating manifold

Technical Informations

The thermoelectric actuator is intended to use with underfloor heating systems. It can be used with thermostatic valves in the manifold for underfloor heating or with zone valves. It allows to open or close the flow of the heating medium in a loop, which gives you the control on the room temperature. It cooperates directly with the thermostat or indirectly via control box.

Type	NC = Normally closed
Thread's size	M30 x 1.5mm
Power supply	230V AC 50Hz
Power consumption	2W
Max. inrush current	300mA / 200ms
Closing force	100N +/- 15%
Adaptive stroke length [mm]	4.5mm
Storage temperature	-25°C to +60°C
Ambient temperature	Max. 60°C
IP protection class	IP 54/II
Power cord length [cm]	90cm
Dimension [mm]	Φ 41 x 65
