

EHW-B

DHW timer

- Programmable timer for water heaters
- Adjustable operating hours
- Intuitive control panel
- Compatible with most water heaters
- No need to replace the entire system
- Built-in thermostat – temperature control
- Simple installation and configuration
- Energy savings and lower bills
- High quality construction
- Quiet, trouble-free operation
- Impact on the energy efficiency of the home

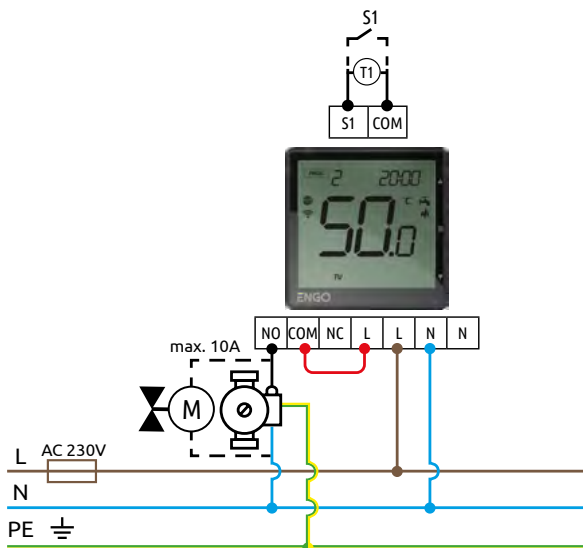

TECHNICAL INFORMATION

Power supply	230 V AC
Display temp. accuracy	0,5°C
Control algorithm	Hysteresis ($\pm 1^\circ\text{C}$ to $\pm 20^\circ\text{C}$)
Communication	Wi-Fi 2,4 GHz
Input	S1/COM – temperature sensor. or voltage free contact
Output	NO/COM/NC, 5(2)A
Dimensions [mm]	90 x 90 x 44

CONNECTION DESCRIPTION

a) Connection diagram for pump / actuator

b) Connection diagram for hot water valve via hot water stat.
